MSc Computing Science student at the University of Alberta with experience across software development, cybersecurity, networking, databases and web development. Currently working as a Graduate Teaching Assistant for undergraduate Computing Science students at the University of Alberta. Strong technical problem-solving, research and communication skills, with a particular interest in internet safety and security. Seeking Summer 2027 internship opportunities in software development, cybersecurity and related technology fields.

EDUCATION

MSc Computing Science (Multimedia) | **SEP 2026 – PRESENT** |
The University of Alberta – Edmonton, AB
Current Graduate Coursework: Image & Video Processing, Virtual Reality & Tele-Presence, AI in Multimedia

BSc Computing | 2022-2025 |
FIRST CLASS HONOURS
The University of Buckingham – Buckingham, UK
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Databases, Operating Systems, Networks, Cybersecurity, Cloud Computing, Web & Mobile Development, Quality Assurance & Testing, Research Methods

TECHNICAL SKILLS

- **Programming:** Python, Java, C#, C++, JavaScript, SQL
- **Web & Software Development:** Django, .NET MAUI, Angular, HTML, CSS, XAML, Git, GitHub
- **AI, Image Processing & Multimedia:** Image Processing, Histogram Analysis & Equalization, Machine Learning Fundamentals, Deep Learning Fundamentals, Virtual Reality (VR), Augmented Reality (AR)
- **Development & Scientific Tools:** Unity, NumPy, Jupyter Notebook, Visual Studio Code
- **Databases & Data:** SQL, Relational Databases, Database Design, Data Analysis, Data Validation, Data Visualisation, Microsoft Excel
- **Systems & Cybersecurity:** Linux, Networking Fundamentals, Operating Systems, Cybersecurity Fundamentals, Cloud Computing, AWS Fundamentals
- **Research & Productivity:** Technical Research, Literature Review, Information Analysis, Microsoft Office, Google Workspace

CERTIFICATIONS

CompTIA Security+ — September 2026
CompTIA Network+ — June 2026
Level 3 First Aid — February 2026

WORK EXPERIENCE

Graduate Teaching Assistant
University of Alberta – Edmonton, AB
September 2026 – Present

- Support undergraduate Computing Science students during laboratory sessions and office hours
- Troubleshoot development environment, application configuration and programming issues.
- Guide students through debugging and technical problem-solving while encouraging independent investigation and solution development.
- Explain programming and web development concepts clearly to students with varying levels of technical experience.
- Review student work and contribute to grading in accordance with course requirements and marking criteria.
- Participate in teaching-team meetings and collaborate with instructors and other teaching assistants to support consistent course delivery

Customer Assistant
Marks & Spencer Luton, UK
January 2026 – April 2026

- Delivered excellent customer service in a fast-paced retail environment while maintaining accuracy under pressure.
- Assisted customers with purchases and enquiries while delivering friendly, efficient service.
- Processed customer purchases and card payments accurately using POS systems.
- Managed inventory, stock rotation, and product information with strong attention to detail.

Social Secretary
University of Buckingham Computer Science Society
2024-2025

- Organised and coordinated social events and activities for the Computer Science Society, demonstrating time management and creativity in planning engaging sessions.
- Showcased adaptability and promoted events and increased student participation.
- Managed and ran the society's social media page, requiring problem-solving and creative thinking to maintain consistent and appealing content.
- Designed promotional materials using Adobe Suite, Canva and Photopea, applying team collaboration and a keen eye for design.

Student Ambassador
University of Buckingham
2024-2025

- Represented the university at recruitment events, engaging with 100+ prospective students and using strong interpersonal and communication skills.
- Supported recruitment efforts through informative conversations, adapting to varying audience needs with empathy.
- Provided campus tours and insights to enhance enrolment, combining leadership and public speaking abilities to create a welcoming environment.

TECHNICAL PROJECTS & EXPERIENCE

- **An IoT-Based System for Athlete Monitoring and Training (Final Year Project)**

Designed and developed a .NET MAUI application that collected, processed and analysed simulated IoT sensor data from a relational database. Organised performance data into actionable dashboards and summaries using trend analysis and threshold-based evaluation. Implemented data visualisation features to help coaches interpret athlete performance and support evidence-based decisions. Worked with structured datasets, ensuring accurate storage, retrieval and presentation of information.

- **Sensor-Based Detection System for Anti-Poaching Surveillance**

Collaborated on the design of a sensor-based monitoring system that generated and logged environmental data. Assisted with data capture, event logging and database communication between sensors and monitoring systems. Applied analytical thinking to evaluate system behaviour and improve data reliability.

- **Research Internship – Generative AI in Education**

Conducted extensive literature reviews and online research into generative AI adoption within higher education. Collected, organised and analysed qualitative research findings from academic publications. Synthesised large volumes of information into concise presentations and recommendations for senior academic staff. Produced evidence-based insights through structured analysis of emerging AI technologies.

- **Mastercard Cybersecurity Job Simulation – Forage | 2026**
- **AIG Cybersecurity Job Simulation – Forage | 2026**

LEADERSHIP AND VOLUNTEERING

Academic Representative
University of Buckingham School of Computing
2022-2024

- Acted as a liaison between students and faculty, addressing academic concerns and fostering communication.
- Facilitated discussions on curriculum improvements, demonstrating leadership, ensuring alignment with student needs.
- Contributed to decision-making processes related to academic policies and program development.

Mathematics Tutor
Superprof | 2023 - 2025

- Provide one-on-one and group tutoring for sixth form and primary school students in mathematics.
- Explain complex mathematical concepts in a patient manner and accessible way to improve student understanding.
- Develop personalised lesson plans and practice exercises to enhance problem-solving skills.
